Stone of Quartic per 10 hours.

Extract from "THE ENGINEER," May 12, 1871, page 320

"The ram-head works against a fixed toothed face, and, if there were nothing more, stones put into the hopper would be simply crushed between the two—much as in Blake's machine. But here the similarity suds. It has been found that what we may best term a chewing action inaterially facilitates the breakage of the stones, and this chewing action is obtained by mounting the ram-head and its thrust-bar or haudle on an eccentric close to the head. The motion attained by the use of the centric produces the precise effect required very efficiently. All the arrangements are very simple and sechanical and the machine appears to have nothing about it to get out or order. We were much pleases with \$1."

EDITOR STANDARD: - * * You gave, I think, very trutaful answers to your correspondents. Since I wrote to you, the accounts of the Hon. Mr. Langevin, (who was ent out to British Columbia by the Dominion Parliament), were published in the Daily Leader, (a paper I take). I was greatly gratified with such accounts—there are a number of people talking of going out with me; a great many more would like to go, only the trip is an expensive one—if the Central (N.) Pacific road was completed it would be much more accommodating for Canadians, as the terminus, Olympia, is so near Vancouver Island. Any information that you would think profitable for people intending to go to your country, please give a little space to. I would like to know if the climate is healthy, and if it is not injurious to people troubled with pulmonary diseases. So many people want information. I would also like to want information. I would also like to know if the Chinese are a quiet kind of people, whether they make good servants, reliable or otherwise. A lady wishes to know if the females make good house servants. Would it pay well to bring out blooded stock and what kind? Any information you would also with the least out. think beneficial please give it. The last number of your paper I got was April 24th, please send them regularly after this date, as I am sending them to the old country. * Are the Indians troublesome? Are the Chinese fai@ful, and to be trusted as servants?

[Note.-In response to our correspondent we would say that we have so repeatedly dwelt upon the subject of the climate, soil, natural products,-the agricultural, mineral, and marine resour ces of this Province,—that we are at a loss what to say in addition to what has already been repeated over and over again. Suffice it, then, to say that we have an excellent country, with a genial climate, a productive soil, an abundance of room o. all who choose to come, and as promising a field for the exercise of honest industry as any other Province in the Dominion has to offer. The climate CARPET & LEATHER SLIPPERS. is variable according to locality, but uniformly healthy. In Victoria and vicinity it is remarkably even in temperature the year through-never unpleasantly warm in the summer nor cold in the winter. On the mainland, in the interior, it more grain Boots, single and double Sole Calf resembles Onterio-being warmer in the summer and colder in the winter than on Vancouver Island. As regards persons troubled with pulmonary complaints, we should not advise any one to come here with the expectation of being benefitted by this cl mate. With ordinary care persons predisposed to consumption may Congress Moroco, Button & Cashmere enjoy as good health in this country as elsewhere, but the winter seasons are trying to weak lungs and bronchial affections. The Chinese are a quiet, industrious, inoffensive people. Some of them make excellent house servants, and are Slippers. remarkably reliable when they are well watched. As for Chinese females doing house-work as servants, we believe the are not "on it," to use a common phrase They are, in their own estimation, the very salt of the earth, the cream of this mundane creation, and hence have no scullery maids or garret-angels, than if A 21 ton Sloop with Sails, Oars and age of 360 feet on three of the principal they were born queens. Thorough-bred Anchor, asshe now lies in rear of our streets in the town, together with the stock of any description, we believe. would pay well. An entire horse of the Clydesdale stock, of which there are many in Canada, would be well received and find plenty of employment. We would also venture to say that the importation of some genuine Durham or Devon stock would pay handsomely. Parties intending to settle in British Columbia should bear in mind that only those succeed who labor for success; it is no country for idlers, or for that other class of persons to be found in almost every new country, whose expectations are always great,seekers after office, who never tire hang ing around the precincts of public departments patiently waiting, like Micawber, for something to turn up. The market is already too well supplied with that class of individuals, and we would certainly discourage any addition to their numbers. But for honest, industrious, frugal men and women, able and not afraid of hard work, we would say here is a wide field for the exercise of their energies with a prospect of sure and certain success. The ludians are not at all

papers thus: Mr. William Stykes of New York is visit ing the city. He is stopping for the present with Sheriff Clark on Cambridge street.

Another pleasant reunion occurred at the Hotel Riley on East street last evening, the occasion being the wake of Mr. Dennis Mulrooney, eighth cousin to Mr. Riley. It wet generally remarked that Mr. Mulrooney never looked so well in his life.

Our Friend Lumper, the popular handcart man, has purchased a new hickory shirt. He will move into it to-morrow morning. Mr. John Smith, proprietor of the Sillor's

Lunch, on Commercial street, is absent this afternoon on business in East Boston. Mr. Mark Manley, of whose private party we gave a public account last week, wears particularly sharp and penetrating toes Nothing has produced so marked an impres sion upon us for some time as Mr Manley'

boots.

DR. ABORN, Oculist, Aurist, and Physici in for chronic diseases, will be at the Pacific Hotel, Olympia, from June 29th until the 8th of July, and at his apartments, corner Third and Morrison streets, Portland,-from the 12th of July until the 12th of August.

GENTLEMEN:-In a short time you will be called npon to elect two members to represent you in the House of Commons, and as many electors have expresse to me a desire that I should offer myselt as a candidat for that honorable position, I now solicit your suffrage ssuring you that if elected, no effort on my part shall be spared to advance your interests at Ottawa or to asparties will be detached from the main body, sist in legislating for the advancement of the whole Cazamayou

> Politically I am in favor of giving a generous suppor to the present Canadian Administration, and should strongly advocate the national importance of the Rail- Mme. P. Clair road being terminated at Esquimalt. I shall urge the establishing of a Quarantine Hospital at onae, the openof an Immigration Agency at Victoria, the building of a ighthouse at the entrance to, and the Dredging of Victoria Harbor, I should endeavor if necessary to obtain an increased guarantee for the Dry Dock, and should point out the benefit and importance of completing the Railroad from the Facific to Lake Superior, (at least) in the shortest possible time.

From present information upon the subject it appear there is little prospect of both Houses being in Session this year at the same time, but should it prove otherwis and should I be elected to the Commons, I should feel in honor bound, (although with great reluctance) to resign my present seat in the Local House and enable another representative to take my place.

I remain respectfully

Your obedient Robert Beaven. Victoria, 28th June, 1872.
